EXPERIENCE

SimInsights Software company in Irvine, California, Software Developer

June 2022 - Present

As a developer, my duties include creating new user-facing features, deciding on the structure and style of web pages, creating reusable codes, reducing page load times, and employing a variety of markup languages to build the sites.

GGs Information Services India Pvt Ltd, Bengaluru Unity Developer

December 2021 - June 2022

As a Unity developer, I'll be in charge of creating and implementing game functionality, detecting bottlenecks, and assuring the final product's quality. Currently I am in a HAL project which is based on virtual reality (VR).

Open Science Publication LLP, Gwalior - Publishing Assistant

August 2021 - December 2021

Reviewing documents and compiling files in preparation for publication, organising financial or publishing data into a weekly or monthly report, and proofreading documents before they go to the print press are all my responsibilities.
